Official Returns Show Marked Increase in its Ravages.

ST. PETERSBURG, July 31 .- Official returns that have just been issued show a mark of increase in the ravages of cholera in Lord Dunraven's Valkyrle Finished Bear Raid Begins with the the parts of the Empire where the disease is

The figures show that from July 9 to July Chicago and Alton Takes a Drop 32 there were in the Government of Podolia cases and 122 deaths during the week pre-ceding. In the Government of Orel, from July 16 to July 22, there were 234 cases and 01 deaths, as against 148 cases and 52 deaths

during the previous week.
In the Government of Toola there were After Great Excitement Stocks Again seventy-seven cases and nineteen deaths from July 16 to July 22. concy in money and the necessities of holders who have got to have each to carry on their business operations.

Of course, every slump the market takes a number of weak investors and speculators are forced to sell. Even Speaker Crisp's statement that he is for the repeal of the Sherman Silver law was ignored by the bears, who slammed things right and left, utterly regardless of everything.

The weakness this morning was occasioned partly by advices from the West that still greater stringency in funds is expected and by an irregular market in London.

The fear that there is something rotten in Chicago Gas which will force the management to reduce or pass the dividend was another depressing factor. Officials deny the rumors, but denials count for little nowadays, the street having been swindled by so many other concerns which have had the backing of some of the wealthiest and most respected capitalists and bankers. The dealings were on a larger scale than at any previous time this season, and considerable excitement prevailed. Some of the heaviest declines were 9 in Pullman Palace Car to 133, 32-8 in American Sugar to 613-4, 21-2 in General Electric to 35-12, 35-8 in Chicago Gas to 35, 15-8 in Rock Island to 511-2, 21-4 in St. Paul to 48, 21-2 in Northwest to 37, 11-2 in Euripeace and 11 octock the shorts began to work, and prices moved up faster than lake Shore to 104, 21-4 in Louisville to 491-4 and 2 in Lackawanna to 127. Chicago & Alton sold at 1271-2 against 12, the last previously reported sale.

Around 11 octock the shorts began to work, and prices moved up faster than lang shall gone down. Western Union was a case in point. It had previously sold at 85, and then quickly railied to 691-2. From this point there was a jump to 721-2. Sugar rose 3 to 643-4. Lackawanna 3 to 130.

Drawing Their Money.

Women Largely in the Majority, but Little Excitement Shown,

The thirty and sixty day rule with regard to withdrawing of deposits went into effect to-day in nearly all the sayings banks of this city and Breoklyn. The result was the banks were crowded with depositors during the early hours of the morning, and while excitement manifested, it was eviden breeze from the north-northwest, and that those who had their savings in the yachts got away in capital style. the banks had been somewhat stirred up by the action of the Presidents las

Not a few of them came to give the re quired notice, while nearly all of them showed a disposition to withdraw small mms ranging from \$25 to \$100. There

showed a disposition to withdraw small showed a disposition to withdraw small saums ranging from \$25 to \$100. There were also many who simply came around to their banks to see if the rule would be enforced, and when told that they would have to give thirty or sixty days notice, as the case might be, if they wanted to take out all their money, they went away without any further ado.

Perhaps one of the biggest crowds to be seen was at the new building of the Greenwich Savings Bank, at Sixteenth street and Sixth avenue. The women's side was literally packed with depositors before the hour for opening the bank, and at one time there was a line which extended three rows deep up and down the long room.

On the men's side there were pehaps fifty or more, but it was expected that the number would be unusually large after the publicity which had been given to the action of the Presidents last Saturday.

President John Harsen Rhodes did not think the situation was a serious one in any aspect of the case.

"I suppose a great many depositors are a little nervous about their money, after all the talk that has been made." he said, "but this movement, im my opinion, will die out in a few days, when the masses begin to appreciate the fact that the banks are all in a soild financial condition.

"According to one of our by-laws, which was established away back when the bank was founded, we are not obliged to pay depositors all their money except on four days in the year, and then only at a week's notice.

"Of course, we do not propose to enforce any such rule, and decided this morning to pay out money only in sums of less than \$160, and te enforce the sixty days." Settice rule in case depositors wished to withdraw their entire account. "The Board of Trustese ratified this action at a meeting which was held this morning, and the rule will remain in force until the present necessity of husbanding our currency is passed.

and they got it.

"We expect that our depositors will also treat us generously. If it is found that any one is disposed to take advantage of the rule to come here and draw out a hundred dollars a day regularly, with no other object than to get out their money, we shall put a stop to it by refusing to give them any.
"I do not anticipate that there will be any such general movement. If there is I understand that other banks will take the rame course and require from depositors wishing to withdraw their money some proof of the purpose

there is I understand that other banks will take the rame course and require from depositors wishing to withdraw their money some proof of the purpose for which it is intended.

This was done at the Franklin Savings Bank and at the Emigrant Savings Bank and at the Emigrant Savings Bank in Chambers street this morning, both of which had posted up notices to the effect that the sixty days' privilege would be enforced. Although the number of depositors at each of these banks was unusually large this morning, there was no evidence of any run on the banks.

In the case of the latter it was said that many of the depositors, who had withdrawn their funds last Saturday, had come back this morning to redeposit them, having become convinced that the scare was a senseless one, and that it would be a great deal better to have their money out at interest than to hoard it in their stockings

At the Emigrant Savings Bank, the officers have made arrangements to secure \$1,500,000 in gold from France in case there is any difficulty is getting the ready cash here with which to pay their depositors.

The Manhattan Savings Institution, according to one of its depositors, who was seen by "The Evening World" reporter at the Greenwich Savings Bank, was paying its depositors' demands in full this morning at the opening of banking hours. The number of depositors there, it was said, was not large, and the great majority seemed to be willing to let their money remain in the bank.

CARLISLE SETTLES IT.

New York Collector Not to Authenticate Chinese Certificates.

Instance Cited of a Fraud Extended by That Practice.

The Secretary Declares for Firm Policy sa to Chinese Laborese.

WASHINGTON, July 31 .- Secretary Carilele has taken a hand in the Chi-ness situation in New York, which has been the occasion of so much friction recently between Treasury agents, and Collector Hendricks, and brings and Collector Hendricks, and brings the matter to a close ! a letter on Saturday he sent to Collector Hen

on Saturday he sent to Collector Rendricks. He says:

"I have to acknowledge the receipt of your letter of the 3th inst., in reply to instructions of the 18th inst., in which you were directed to discontinue the practice of authenticating by your agnature or that of your deputies under the official seal of the Custom-House, certificates of the Chinese consult at New York issued to Chinese, other than inhorers about to leave the country, and intending to return thereto.

"Your letter is an ar-ument in support of the opinion you express that the Department should reconsider its instructions of the 18th inst. and permit your officers to authenticate such certificates as heretofore."

decisions on the point, the Secretary says:

"Your assumption that the responsibility for the execution of the laws relating to the exclusion of Chinese rests alone upon the Collector is unwarranted. Upon that officer is devolved the duty of examining and deciding upon the testimony presented by Chinese persons claiming the right to enter the United Btates, but in all cases of doubt it is his duty, as it is the usual practice of Collectors of Customs, to submit the case to the Secretary of the Treasury for his decision, with whom lies the ultimate responsibility for the enforcement of these laws, and whose lawful instructions in the premises should be obeyed by Collectors without question.

"The Department cannot concur in your view that the unauthorised practice, discontinued by its order of the list hist., of authenticating the certificates of the Chinese Consul at New York, which consults the Custom-House merchants in New York, and was so certified by the Chinese Consul at New York, which certificate was duly authenticated by the sail of the Custom-House and the signature of one of your deputies, when, in point of fact, the Chinese person who presented himself at the Custom-House was another and entirely different person from the one named in the certificate.

"This man applied for admission at one of the frontier custom-houses upon the certificate mentioned, which, according to your theory, would be conclusive exidence of his right to enter, in asmuch as the photograph was that of the person who presented himself, but it was not that of the person named in the certificate, who was a real person greated is beyond question, and the Department sees no good reason for the continuance of a practice by your office which in instances like that mentioned which in instances like that mentioned which in instances is the certificate.

"That many cases of this kind have occurred is beyond question, and the Department sees no good reason for the continuance of a practice by your office which in instances like that mentioned only serves as an aid to those engaged in violating the law.

"It is an ascertained fact that many hundreds of Chinese laborers have come into the country within the past year under the guise of merchants, students, actors or other persons for the exempticlass, aided in most cases by customs officers, who were either corrupt or indifferent to their duty in the premises. It is my duty, as it is my purpose, to employ all the means under my control to enforce the law in good faith, and to that end I shall expect the cordial cooperation of all officers of the customs. "Respectfully yours,"

J. G. CARLISLE, Secretary."
